\$300-500 Cash Award

Application and Award Information:

- The Pepsi Generation Excellence Cash Award may be received once during your enrollment at SLCC.
- Award amounts will be based on expected enrollment.
- Incomplete or late applications will not be considered.
- All applicants will be notified, by mail, after scholarships recipients are determined.

Deadline to apply for Fall Semester is **June 1, 2014**

Virtual Job Shadow

Have you ever wondered how you can learn more about the careers that you are interested in? Salt Lake Community College is now providing its students with access to Virtual Job Shadowing, where the students are able to explore the careers that they are pursuing and gain a better understanding of what

professionals working in those careers do on a day to day basis. Students who are interested in Geographic Information Systems, Surveying, Geology or any other field in the geosciences should register in order to gain access to this opportunity. As the College has already purchased the program, all it takes to register is your SLCC email and the creation of a password. It will not cost you anything to register, other than 30 seconds of your time.

This opportunity will not only allow you to participate in virtual job shadows, but it will also grant you access to employment/internship listings, career descriptions, career education requirements, resume/cover letter writing tips, interviewing advice, and networking opportunities.

Summer 2014 Course Offerings

This Summers lineup includes 14 courses being offered online and in person. *You still have time to register!*

GIS

GEOG 1780: Remote Sensing of Earth

GEOG 1800: Mapping our World

*Full term, second half term

GEOG 1820: Intermediate GIS

*Second half term

GEOG 2000: Co-op (Internship)

GEOG 2600: Python for GIS

*Second half term, not offered in Fall

GEOG 2800: Web GIS

*Second half term, not offered in Fall

Surveying and Geomatics

SVT 1010: Intro to Surveying

*First half term

SVT 2050: Legal Descriptions

EDDT 1040: Intro to AutoCAD

*Second half term

EDDT 1420: Basic Microstation

*Second half term

ENGL 2100: Technical Writing

*Second half term

LE 1220: Human Relat. Career Dev.

*Full term, second half term

Environmental Geology

GEO 1010: Intro to Geology

*Second half term

GEO 2350: Field Studies in Geology

Upcoming Events

May 19, 2014

Beginning of Summer Semester

May 22, 2014

Internships and Employment

Numerous opportunities for both employment and internships in the geosciences are available right now. Check out the Job/Internship Search page of the website for a complete list of current opportunities. The featured opportunities for this issue come from The Wasatch Front Regional Council.

WFRC - GIS and Data Analysis Intern

Qualifications:

College student with interest and ability in urban planning, geography, and/or demographics. Coursework/experience in GIS is required. Experience/coursework in statistics, economics, and programming is a plus.

Assist in cleaning, organizing, and analyzing transportation, traffic, land use, and demographic data for use in our forecasting models. These models include the regional Travel Demand Model and the Real Estate Market Model. Other duties may include creating maps and other visual displays that clearly communicate complex data in a manner which is easy to understand. We are in need of up to 2 interns to assist in this effort.

Contact Dustin Fratto for more information
